L'actualité au cœur des cours d'anglais

Nathan

If you like horror films, **Blood Manor** is for you! It's a "haunted house" in New York City.

It opens in October and November, just in time for Halloween. The first thing you see when you arrive is an ambulance in front. Uh-oh! When you go inside you can hear horrible noises, and terrible things touch you.... Aaagh!

If you are really brave, there are special "lights out nights" where you visit the house with just one luminous glow stick and no other lights. ■

Help

blood (n, pronunciation: *blud*) red liquid in your veins

lights out (n) with no lights – you can't see

glow stick (n) a phosphorescent stick people use at parties
